

### Writing Questions for the Customer interview

Most questions in English follow this pattern:

(question word) + aux verb + person + verb (lexical)

What are your company's main issues?

Why did you contact my services?

Task 1: In pairs. Write 2 questions for each topic

Specific Programming question

Time (deadline)

Budget (money)

Meeting schedules

Needs

Task 2. Watch this video and take some notes to complete this programmer's profile below.

**Your Project:**

- Data analytics & Numpy
- Distributed systems
- Scientific projects

**I'm a Python book  
author & Ph.D. student  
in computer science**

Nationality	IT expertise	Example with a client (key ideas)

**Task 3: Prepare a similar video sharing your profile with possible clients. (not more than 1 minute long)**
